

SUSAN EVANS

UX Designer + Developer

susanev.com

hello@susanev.com

(206) 395-8146

Three years experience leading UX design and research. Seven years experience innovating in the computer science education space.

I am passionate about improving the human experience by combining deep technical and design knowledge to craft digital experiences.

I love solving challenging problems in diverse teams while using user-centered practices.

WORK EXPERIENCE

User Experience Developer

Premiera

Jan 2017 – Present

Leading a number of UX initiatives to improve the member experience, and prepare for the upcoming redesign. My process includes sketching, high-fidelity code prototypes, and research informed iteration.

User Experience Designer

University of Washington LiY!

Feb 2014 – Mar 2016

Led the design and research of a tool for faculty across the nation to use when creating workshops focused on the advancement of women and under-represented groups in engineering fields.

Computer Science Instructor

Ada Developers Academy

Nov 2016 – Present

Design and teach a series of Ruby classes for students with limited prior programming experience. Create a safe and inclusive, learning community centered around students.

University of Washington

Mar 2016 – Present

Design and teach undergraduate and graduate introductory programming courses using a variety of languages including Java, Processing and p5.js.
